## DETAILED ACTION

### ***Claim Rejections - 35 USC § 102***

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

2. Claims 1-2, 4, 15-16 are rejected under 35 U.S.C. 102(b) as being anticipated by Volpe (6431535).

Volpe discloses a holder having a base (10), a mounting plate (90), a pair of jaws (110), an operating member (102) mounted on the mounting plate, and a slot (the slot with element 92 and the other slot is a slit the beam members are the edge of the slot and the other beam is inbetween the slot and the slit),

3. Claims 1, 15-16, and 18-19 are rejected under 35 U.S.C. 102(b) as being anticipated by Moore (6412158).

Moore discloses a holder having a base (8), a mounting plate (3), a pair of jaws (7) with an operating member, and a slot (16 the beam members are the edge of the slot and the other beam).

### ***Allowable Subject Matter***

4. Claims 3, 5-14, and 17 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

***Conclusion***

5. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Lin and Timms disclose an invention.
